ABOUT THE INSTITUTE

JiIT, NOIDA, a leading Engineering Institute in Delhi NCR, is constantly ranked amongst top 50 in the leading surveys. The institute is committed to produce professionals who shall be leaders in innovation, entrepreneurship, creativity and management. The institute offers varied courses ranging from bachelors to PhD in the fields of Engineering, Technology Business and Management. JiIT provides great exposure to the students through exchange programs with selected International Universities. JiIT organizes several National and International conferences in various fields throughout the year as its constant endeavor to keep the students and faculty abreast with the latest research and innovations.

ABOUT THE DEPARTMENT

The Department of Biotechnology at JiIT, NOIDA, established in 2002, remains committed to provide research-informed teaching and learning, and vibrant R&D environment. The department through its contemporary curricula is committed to impart quality education. Its state of art laboratories and sponsored research projects provide the platform for cutting edge research. Faculty with rich research exposure in academia and industry, both in India and abroad, contribute to the department academic core.

ABOUT THE CONFERENCE

The International E-Conference on Advances in Biosciences and Biotechnology (ICABB-2021) aims to unite multi- disciplinary fields of biology, biosciences, and medical biotechnology on a single platform. It will provide a platform to bring academicians, researchers, scholars, technocrats from academia and industry to share their ideas, knowledge, and experience. This is the 6th International conference being organized by the Department of Biotechnology. This year, the theme of the proposed conference is 'Recent Trends in Biosciences and Biomedical Research'. This conference aims to provide an opportunity to participants, delegates and researchers along with other stakeholders to share scientific advancements in various disciplines of biosciences and biomedical research and to get acquainted with novel or alternative strategies to seek answers to various global challenges.
